

The process of assessment of 'course outcome' is based on mid examination, end semester examination, assignments. The following are tools & mechanisms being employed for the attaining the course outcomes.

- i) Mid Examinations: This kind of performance assessment is held twice per semester. Each and every exam is aimed at achieving the course outcomes.
- ii) End Semester Examination: End Semester examination is a metric for assessing whether the entire COs are attained or not. Examination is more focused on attaining the course outcomes and program outcomes using a descriptive model of exam.
- iii) Assignments: Each and every student is assigned with course related tasks during every semester. The course work will be evaluated based on their performance.

The performance of the students in the examinations during the semester in each course is used to compute the level of direct attainment of the COs.

Student feedback is collected through an on-line survey at the end of program. In addition, Co-curricular, extracurricular, placement, higher studies, etc. are taken into account for the assessment of final attainment of programme outcomes (Pos) & programme specific outcomes.
